

## CLAIMS

The invention is claimed as follows:

- 5     1.     A gaming device comprising:
- a game operable upon a wager;
- a display device;
- a first selection group including a plurality of first selections  
adapted to be displayed by the display device;
- 10           at least one award indicator adapted to be displayed by the  
display device after one of the first selections is picked;
- at least one picks indicator adapted to be displayed by the  
display device after one of the first selections is picked;
- a second selection group including a plurality of second  
15     selections;
- at least one award indicator adapted to be displayed by the  
display device after one of the second selections is picked; and
- a number of second selection picks in the second selection  
group corresponding at least in part to the displayed picks indicators.
- 20
2.     The gaming device of Claim 1, which includes a plurality of  
award indicators adapted to be displayed by the display device after a  
plurality of the first selections are picked.

3. The gaming device of Claim 1, which includes a plurality of award indicators adapted to be displayed by the display device after a plurality of the second selections are picked.
- 5 4. The gaming device of Claim 1, which includes a plurality of picks indicators adapted to be displayed by the display device after a plurality of the first selections are picked.
- 10 5. The gaming device of Claim 1, which includes a plurality of award indicators, wherein for each of the second selections picked, one of said award indicators is adapted to be displayed by the display device.
- 15 6. The gaming device of Claim 1, which includes at least one advance indicator adapted to be displayed by the display device after one of the first selections is picked.
- 20 7. The gaming device of Claim 1, wherein the first selections are player selectable.
8. The gaming device of Claim 1, wherein the second selections are player selectable.
- 25 9. The gaming device of Claim 1, wherein the first and second selections are player selectable.

10. A gaming device comprising:  
a game operable upon a wager;  
a display device;  
a first selection group including a plurality of first selections  
5 adapted to be displayed by the display device;  
at least one award indicator adapted to be displayed by the  
display device after one of the first selections is picked;  
a second selection group including a plurality of second  
selections adapted to be displayed by the display device;  
10 at least one picks indicator adapted to be displayed by the  
display device after one of the second selections is picked;  
a third selection group including a plurality of third selections;  
at least one award indicator adapted to be displayed by the  
display device after one of the third selections is picked; and  
15 a number of third selection picks in the third selection group  
corresponding at least in part to the displayed picks indicators.

11. The gaming device of Claim 10, which includes a plurality of  
award indicators adapted to be displayed by the display device after a  
20 plurality of the first selections are picked.

12. The gaming device of Claim 10, which includes a plurality of  
award indicators adapted to be displayed by the display device after a  
plurality of the third selections are picked.

25

13. The gaming device of Claim 10, which includes a plurality of picks indicators adapted to be displayed by the display device after a plurality of the second selections are picked.
- 5 14. The gaming device of Claim 10, which includes a plurality of award indicators, wherein for each of the third selections picked, one of said award indicators is adapted to be displayed by the display device.
- 10 15. The gaming device of Claim 10, which includes at least one advance indicator adapted to be displayed by the display device after one of the first selections is picked.
- 15 16. The gaming device of Claim 10, which includes at least one advance indicator adapted to be displayed by the display device after one of the second selections is picked.
17. The gaming device of Claim 10, wherein the first selections are player selectable.
- 20 18. The gaming device of Claim 10, wherein the second selections are player selectable.
19. The gaming device of Claim 10, wherein the third selections are player selectable.

20. A method for operating a gaming device having a game operable upon a wager, said method comprising:

displaying a first selection group including a plurality of first selections;

5 displaying a first award indicator after one of the first selections is picked;

displaying a picks indicator after one of the first selections is picked;

10 displaying a second selection group including a plurality of second selections; and

displaying a second award indicator after one of the second selections is picked, wherein a number of second selection picks in the second selection group corresponds at least in part to the displayed picks indicators.

15

21. The method of Claim 20, which includes displaying an advance indicator after one of the first selections is picked.

22. The method of Claim 21, which includes enabling the player to  
20 choose first selections in said first selection groups until advance indicator is displayed.

23. The method of Claim 20, which includes displaying a plurality of award indicators after a plurality of the first selections are picked.

25

24. The method of Claim 20, which includes displaying a plurality of award indicators after a plurality of the second selections are picked.

25. The method of Claim 20, which includes displaying a plurality of  
5 picks indicators after a plurality of the first selections are picked.

26. The method of Claim 20, which includes displaying a plurality of award indicators, wherein for each of the second selections are picked, one of the award indicators is displayed.

10

27. The method of Claim 20, which includes displaying at least one advance indicator after one of the first selections is picked.

28. The method of Claim 20, wherein the first selections are player  
15 selectable.

29. The method of Claim 20, wherein the second selections are player selectable.

20 30. The method of Claim 20, wherein the first and second selections are player selectable.

31. The method of Claim 20, which is operable through a data network.

32. The method of Claim 31, wherein the data network is an internet.

33. A method for operating a gaming device having a game  
5 operable upon a wager, said method comprising:

displaying a first selection group including a plurality of first selections;

displaying at least one award indicator after one of the first selections is picked;

10 displaying a second selection group including a plurality of second selections;

displaying at least one picks indicator after one of the second selections is picked;

15 displaying a third selection group including a plurality of third selections; and

displaying at least one award indicator after one of the third selections is picked, wherein a number of third selection picks in the third selection group corresponds at least in part to the displayed picks indicators.

20

34. The method of Claim 33, which includes displaying a plurality of award indicators after a plurality of the first selections are picked.

35. The method of Claim 33, which includes displaying a plurality of  
25 award indicators after a plurality of the third selections are picked.

36. The method of Claim 33, which includes displaying a plurality of picks indicators after a plurality of the second selections are picked.
37. The method of Claim 33, which includes displaying a plurality of  
5 award indicators, wherein for each of the third selections are picked, one of the award indicators is adapted to be displayed by the display device.
38. The method of Claim 33, which includes displaying at least one  
10 advance indicator after one of the first selections is picked.
39. The method of Claim 33, which includes displaying at least one advance indicator after one of the second selections is picked.
- 15 40. The method of Claim 33, wherein the first selections are player selectable.
41. The method of Claim 33, wherein the second selections are player selectable.  
20
42. The method of Claim 33, wherein the third selections are player selectable.
43. The method of Claim 33, which is operable through a data  
25 network.

44. The method of Claim 33, wherein the data network is an internet.
